

University of North Texas - Relief Efforts for Hurricane Harvey Victims

- Registration has been extended until today to assist those impacted to enroll at UNT. This also makes our deadline for payment extended until tomorrow 9/6/2017
- Dean of Students office is assisting those students stuck in Houston (due to damage to houses, flooding, no gas, etc); those called to active duty to assist with the cleanup efforts and those stuck on cruise ships. DOS advocated on their behalf so they were not dropped from classes.
- Student emergency fund was already in existence and UNT worked with Advancement to set up website to take immediate donations to help our students who needed extra funding (textbooks, living expenses, etc). Worked with Comptroller to have extra cash on hand for this fund to be given out.
- Housing found spaces to put students who needed housing due to plans falling through or missed deadlines by outside apartment complexes.
- Accepted transfers to UNT and waived application fees and late registration fees.
